AGREEMENT DATE: 6/18/2019

SECTION III: GENERAL

A. LIMITATIONS:

The rates in this Agreement are subject to any statutory or administrative limitations and apply to a given grant, contract or other agreement only to the extent that funds are available. Acceptance of the rates is subject to the following conditions: (1) Only costs incurred by the organization were included in its facilities and administrative cost pools as finally accepted; such costs are legal obligations of the organization and are allowable under the governing cost principles; (2) The same costs that have been treated as facilities and administrative costs are not claimed as direct costs; (3) Similar types of costs have been accorded consistent accounting treatment; and (4) The information provided by the organization which was used to establish the rates is not later found to be materially incomplete or inaccurate by the Federal Government. In such situations the rate(s) would be subject to renegotiation at the discretion of the Federal Government.

B. ACCOUNTING CHANGES:

This Agreement is based on the accounting system purported by the organization to be in effect during the Agreement period. Changes to the method of accounting for costs which affect the amount of reimbursement resulting from the use of this Agreement require prior approval of the authorized representative of the cognizant agency. Such changes include, but are not limited to, changes in the charging of a particular type of cost from facilities and administrative to direct. Failure to obtain approval may result in cost disallowances.

C. FIXED RATES:

If a fixed rate is in this Agreement, it is based on an estimate of the costs for the period covered by the rate. When the actual costs for this period are determined, an adjustment will be made to a rate of a future year(s) to compensate for the difference between the costs used to establish the fixed rate and actual costs.

D. USE BY OTHER FEDERAL AGENCIES:

The rates in this Agreement were approved in accordance with the authority in Title 2 of the Code of Federal Regulations, Part 200 (2 CFR 200), and should be applied to grants, contracts and other agreements covered by 2 CFR 200, subject to any limitations in A above. The organization may provide copies of the Agreement to other Federal Agencies to give them early notification of the Agreement.

E. OTHER:

If any Federal contract, grant or other agreement is reimbursing facilities and administrative costs by a means other than the approved rate(s) in this Agreement, the organization should (1) credit such costs to the affected programs, and (2) apply the approved rate(s) to the appropriate base to identify the proper amount of facilities and administrative costs allocable to these programs.

OBJECTIVE 3: THREAT ASSESMENT AND MANAGEMENT TEAM

Needs Assessment:

Personnel assigned to the Office of Investigations and Threat Assessment Division (ITA) will be responsible for the Threat Assessment/Management task. The ITA consists of four sworn Police Detectives and a Police Captain oversees the unit. ITA will standardize Threat Assessment/Management Case Files. Detectives will consider all potential risks throughout the Threat Assessment/Management process and will determine any specific needs required to thoroughly screen each individual case.

In order to properly evaluate the level of threat and manage cases involving complex matters associated with potential safety issues, the ITA needs investigative and intelligence-gathering web based platforms such as but not limited to, Life raft... Additionally, the task of conducting comprehensive and effective threat assessment and case management requires basic and advanced training. Training is an integral component of effective and efficient threat assessment and case management tasks.

FIUPD is a fully certified police department with 78 sworn officer positions and 32 non-sworn employees that make up the department's support staff and Police Service Technicians. The Department is responsible for the safety and security of the fourth largest public university in the nation. FIU is a major research university. FIU has two main campuses with a student population of approximately 56,000 and approximately 11,000 employees. The university has a residential population of approximately 3,500 students and another approximately 5,000 students that live in the area immediately surrounding the two campuses.

FIU is located in Miami-Dade the most populated county if Florida; approximately 2.7 million in approximately 2,431 square miles. Miami-Dade County is home to 34 incorporated municipalities, cities, towns and villages, as well as to unincorporated communities and neighborhoods. Each municipality has their own governmental organization, including police departments. Additionally, the Miami-Dade Police Department, the largest police force in the Southeastern United States, is responsible for the counties unincorporated areas and the duties of the Sheriff.

The FIUPD works closely with the MDPD as well as the Miami-Dade State Attorney's Office and other municipal police departments through Mutual Aid Agreements (MAA) and Memorandums of Understanding (MOU), to identify, report, record, share and work in a collaborative effort to assess and address issues related to threats. Furthermore, the ITA works closely with student services, such as but not limited to, Behavioral Intervention Teams (BIT), Victim Empowerment Program (VEP), and the Office of Conflict Resolution and Student Conduct. The ITA also works closely with the University Department of Human Resources and Title IX coordinator to identify and assess potential threats and address those threats quickly and effectively.

Program Design:

Problem Statement – Our mission is to access, identify, and thwart individuals focused on, or with the potential to, cause havoc by engaging in incidents of mass casualty or other life threatening activities and to keep our community safe. There is a growing problem of mass casualty events taking place in all communities throughout the country and abroad. These events are not contained in specific geographic locations or target only specific places; however, history shows that schools are particularly vulnerable to extremist activity. We must address the issues with a comprehensive methodology that effectively assess and identifies threats, and respond with a multi-disciplinary group of stakeholders to curtail and/or mitigate the dangers posed to the community.

Program Goals and Objectives:

Goals

The FIUPD is committed to the goals of preventing and/or mitigating acts of terrorism and mass casualty events. FIUPD works closely with, and supports, the Miami-Dade Police Department's Special Investigations Division - Homeland Security Bureau, the Miami-Dade Police Department's Threat Management Section, and Southeast Florida Fusion center. FIUPD shall continue to work with and support local, state and Federal law enforcement agencies committed to the prevention of terrorist activities.

Objectives

Specific: The FIUPD will continue to, in collaboration with local, state and Federal law enforcement agencies and other stakeholders, identify, assess, prevent and/or mitigate threats to the community.

Measurable: FIUPD shall continue to keep and manage comprehensive case files to create a database that shall be used to measure statistical information valuable in creating prevention programs. The data shall capture specific characteristics of individuals, which pose a threat of terrorism or mass casualty to the community.

Achievable: Goals shall be achieved with the use of web-based platforms specifically designed to capture investigative and intelligence information. Additionally, case management modules shall assist in a standardized filing and data retention system that can be shared with law enforcement to avoid information falling through the cracks that could potentially pose a safety risk to the community. Training will provide valuable instruction in the use of standardized assessment tools and case management and dissemination.

Relevant: FIUPD shall use the requested training, information gathering, and case management systems specifically to enhance our identification and threat assessment capabilities to keep our community safe from terrorist and mass casualty events.

Time-bound: With the assistance of grant funding, FIUPD can meet these goals within the duration of the grant.

Logic Model:

FIUPD is committed to the use of resources such as but not limited to, personnel (ITA), training, equipment, web-based platforms that assist in investigative and intelligence gathering, threat assessment case management modules, standardized threat assessment tools, inter and intra law enforcement agency collaboration, and other stockholder collaboration.

FIUPD shall be directly involved in the development of awareness programs on terrorist activities and mass casualty events, for university students, faculty, and staff. Additionally, FIUPD shall continue to attend law enforcement briefings to discuss methods of prevention, share intelligence information, and assist with personnel when necessary. FIUPD is an integral component of the universities BIT, VEP and Conflict Resolution and Student Conduct teams along with the universities HR and Title IX Departments. ITA member partner with local, state, and Federal law enforcement agencies in threat management meetings that are of mutual interest in the identification and prevention of terrorist and mass casualty events.

The short-term outcome of the efforts and resources invested by the FIUPD is to immediately prevent attacks on the community. The long-term goals are to build relationships and provide resources that create a network of relationships with law enforcement and other stakeholders through training, awareness programs, education, community relations, and technology to better identify, assess and prevent incidents of terrorism and mass casualty events.

Theory of Change:

Everyone has a role in preventing school violence and creating safe school climates. Threat assessment models are an important component of school safety and security efforts and have been determined to be the best-practice in the prevention of targeted school violence, terrorist attacks and mass casualty events. If we use the logic model presented above, then we can expect to enhance our capabilities in the fight against these acts of violence.

Organization and Key Personnel:

Personnel assigned to the Office of Investigations and Threat Assessment Division (ITA) will be responsible for the Threat Assessment/Management task. The ITA consists of four sworn Police Detectives and a Police Captain oversees the unit. ITA will standardize Threat Assessment/Management Case Files. Detectives will consider all potential risks throughout the Threat Assessment/Management process and will determine any specific needs required to thoroughly screen each individual case.

Sustainability:

The FIUPD shall continue to operate after the performance period as the primary law enforcement agency at FIU. Florida State Statutes requires all state universities have a funded police department.

Budget Detail and Narrative:

Our budget for this project is very minimal and straight forward. Our direct costs include only a virtual training for the Threat Assessment and Investigation's Unit. The training, Advanced Violence Risk Assessment Certification Course carries a registration rate of \$678 per person. We have 8 individuals from our department who will participate, including 4 detectives, 1 police captain and 2 dispatchers. This brings our direct costs to a total of \$4746. Our indirect costs, \$2245.35, are made up of 47.5% F&A (administrative) fees; the standard rate for our institution. Our total requested funds are \$7000.35.
